

Cdivx Player

Cdivx Player

Cdivx Player is a free light skinnable video player optimized for Divx videos, playing DivX, XviD, AVI, ASF, WMV, MPEG, VCD, MOV, DAT and lots of other video formats. It also supports images: bmp, jpg and audio files like WAV, MP3, OGG etc. It has a friendly interface and the shell integration option provides fast access to any video file. This first release offers fast media rendering with a clearable history list, normal, fullscreen and desktop playback, aspect ratio settings of i.e. 4:3 (tv) 16:9 (wide), image grabbing from videos to BMP, JPG or PNG files and an information browser window for news, updates, codecs and friendly error reports. The package also contains a free Divx and AC3 codec. A skin builder will be released in the future.
