

Cliprex DS DVD Player

Free DVD/Video Player Software with Playlist

Cliprex DS DVD Player is a free Windows DVD video player software program built on the advanced Directx 9.0 technologies for playing DVD, any movie DIVX, XVID, MPEG, WMV, ASF, Video CD, Super Video CD and any other videofile you have the codec installed for. This free DVD software player supports aspect ratios 4:3, 16:9 and more. The DVD menu contains a chapterlist which makes navigation through the DVD a piece of cake! With this full-featured free dvd and video player have the possibility to create huge playlists and take advantage of the nice options the playlist offers like saving your playlist and load it at a later time, or publish your playlist to a html website! You also can add videos from all your drives to it, even from network resources. This version of Cliprex DS DVD Player is free for viewing DVD videos and other videos on a home PC or notebook computer. The package also contains free DVD decoders, mpeg-2 audio/video and divx codecs. Enjoy DVD playing with this free DVD player!
