

Clipscreensaver

Free video screensaver

Clipscreensaver is a windows screensaver playing videos of all kinds. You have the possibility to create a playlist with videos from your favorite videos and play them in your default screensaver. The following video types are supported: DivX, XviD, MPG, MPEG, AVI, WMV, MOV, M1V, M2V and more. Let Clipscreensaver pick one of your favorite videos at random automatically. Several options can be set in the settings panel. Clipscreensaver can mute the music/sound from your playing videos, set the default aspect ratio and preview the way videos are going to be displayed. Enjoy your favorite videos even without touching your pc!
